

May 1 is a labor day that unites representatives of all professions! A celebration of peace, spring, and creation!

The festive rally "We are together!" at the memorial complex "First Tent" gathered representatives of the labor collectives of our city and trade union organizations that stand for the protection of workers' rights. Employees of the Polotsk CCMS also joined this event.

In conclusion, those present paid tribute to the memory of the first builders of the city, laying flowers at the memorial.

May 1 is not only a holiday of work and recreation, but also an opportunity to reflect on the importance of work, its role in our lives and the need to fight for a better future for all. On this day, we can celebrate our achievements and victories together, but also focus on the important tasks and challenges facing us in the modern world.
