

February 15 - Day of Remembrance of Internationalist Soldiers

Every year on this day we pay tribute and gratitude to the servicemen who performed their military duty.

The brutal Afghan war, which lasted more than nine years, became a great tragedy for our Fatherland. It broke the lives of many young guys, forever left a deep, unhealed wound in the hearts of generations, but at the same time showed that they are worthy of the heroism of their fathers and grandfathers who defeated fascism during the Great Patriotic War.

The alarming challenges of our time remind us every day of the value of peace and give ever greater importance to preserving the memory of the courage and heroism of internationalist soldiers.

Every year, events dedicated to this memorable date are held throughout Belarus.

Employees of the RUE "Polotsk CSMS" took part in a city rally at the "Broken Star" monument in Novopolotsk.
