18 dekabrya direktor Polotskogo TSSMS posetil Oblastnoy obrazovatel'nyy forum «Energovzglyad» 89 / 5 000 On December 18, the director of the Polotsk Center for Social and Medical Studies visited the Regional Educational Forum "EnergoVzglyad"

On December 18, the director of the Polotsk Center for Standardization and Metrology visited the Regional Educational Forum "Energy View".

At this event, students of the regional educational institutions presented their ideas for creating an energy-efficient future. If sponsors and investors are found, then cities and apartments with artificial intelligence at the service of people will become a reality!

The guests of the forum, among whom was the Deputy Chairman of the State Standard Vitaly Kretsky, especially liked the youth projects. Vitaly Kretsky noted that the participation of schoolchildren and representatives of enterprises of the real sector of the economy allows us to see how many talented children are ready to generate ideas that are waiting to be implemented.

Work to improve energy efficiency in educational institutions and the involvement of teachers and students inspire confidence that such values as energy conservation and innovation will become a way of life for the younger generation. The effectiveness of energy conservation directly affects the socio-economic development of the country.

At the dialogue platform "100 questions to an adult", the general director of RUE "Vitebskenergo" Sergey Shidlovsky talked with students. He shared his experience of studying and professional growth, emphasizing the importance of choosing a goal and confidently moving towards it. And it would be great if the common goal is energy efficiency!

The Energy View forum has many locations where everyone can find something new and interesting. Thanks to the organizers: the main department for education of the regional executive committee, the regional department for supervision of rational use of fuel and energy resources and the Vitebsk regional institute for education development.
