

The first congress of Belarusian accreditation experts was held in Minsk on June 9.

The event was held under the motto "Competence is our standard" and was timed to coincide with the World Accreditation Day, celebrated on this day in various countries of the world, including Belarus.

The congress was attended by Elena Morgunova, Chairman of the State Standard, as well as more than 350 delegates – leading experts and technical experts on accreditation, including employees of the Polotsk CSMS.

Following the results of the congress, a declaration was adopted with specific instructions to the accreditation body for the near future in the main areas of activity.

Within the framework of the blocks, the best experts of 2024 were awarded based on the results of the annual Competence 2024 competition in the nominations "Technical Expert on Accreditation", "Expert on Accreditation", these are 25 technical experts on accreditation and 7 experts on accreditation in various fields of testing, measurement, calibration, product certification, management systems and staff.

Natalia Vasilyevna Kulenenok, Deputy Head of the Certification Department of the Polotsk CSMS, is among the best experts in the field of product conformity assessment.

Congratulations and we wish that this high rating will become an incentive for new successes!
