

Dear colleagues!

I sincerely congratulate you on the Day of National Unity!

This holiday symbolizes the unity of the people, emphasizes the continuity of generations, the involvement of each of us in the fate of the Motherland. We have something to be proud of, the country has a rich historical past, and its future depends on each of us. Only together, by joining forces, can we overcome any difficulties, solve the most difficult tasks, change life for the better, ensure a decent future for our children and grandchildren.

Today, Belarus proudly honors its traditions and confidently moves forward. We must remember that only together can we achieve our main goal - well-being, peace and harmony on our land. On this holiday, I wish all of us peace and goodness, inner peace, unity and cohesion in the name and for the benefit of our state! Happy holiday!
