

Gosstandart - participant of BelPromInnoForum - 2023

The Belarusian Industrial and Innovation Forum will be held in Minsk from September 26 to 28, 2023. The event is aimed at promoting innovative industrial equipment, products and technologies of domestic and foreign companies to regional and international markets, strengthening business contacts and sharing experience.

The forum program includes the 26th international exhibition of technologies and innovations in industry "TechInnoProm", which will be held on the same site with the international specialized exhibitions "Chemistry. Oil and gas", "Polymers and composites", "Professional welding".

Gosstandart and its organizations will traditionally take part in BelPromInnoForum events.

Thus, at the joint exhibition exposition of the committee, the results and priorities of activities in the field of technical regulation and standardization, metrology, accreditation, testing, information support and quality will be presented.

On the sidelines of the forum, Gosstandart together with BelGISS, BelGIM and BSCA will hold breakout sessions:

- "Management systems. Innovation Management" - September 26;
- "Ensuring the uniformity of measurements in the Republic of Belarus" - September 27;
- "Current issues of accreditation in the context of modern challenges" - September 27. As part of this meeting, a solemn award ceremony will take place to award the winners of the republican competition "Competence - 2022".
