

Children's creativity competition "The World of metrology through the eyes of children" in Polotsk CSMS

In honor of the celebration of World Metrology Day and the 150th anniversary of the establishment of the International Bureau of Weights and Measures, the children of the Polotsk CSMS staff took part in the children's creativity contest "The World of Metrology through the eyes of children."

The children expressed through art how they understand the essence of their parents' work.

Handicrafts, drawings, and any creative work were accepted for the exhibition. The exhibition was placed in the lobby of the enterprise, and it will keep employees and visitors of the center in a good mood for a long time.
