The Certification Department of the Republican Unitary Enterprise "Polotsk CSMC" invites enterprises and individual entrepreneurs of the construction complex for cooperation!

We will provide services in the development and documentation of technological documents of the production control system (SPK) as part of the production of products, the performance of work (the provision of services) in the field of construction.

To conclude a contract for the provision of services, send an application in any form to the certification department of RUE Polotsk CSMS by e-mail: sert@polotskcsms.by, by mail at: 211440, Novopolotsk, Zavodskoy passage, 32.

For all questions, we will answer by phone. +375 214 51-98-82, +375 33 901-27-31 (Natalia Kulenok).

We guarantee competitive prices and minimum terms of order fulfillment!

Reference:

SPK (Industrial Control System) is a set of activities carried out by the manufacturer at all stages of production, CONFIRMING his ability to produce building materials and products with stable quality indicators.

Organizations that carry out activities IN THE FIELD OF CONSTRUCTION must have a CPC that has passed the assessment procedure, followed by the issuance of a certificate of those. competence. The QMS is assessed in accordance with TKP 45-1.01-221-2010 "Construction. Evaluation of the production control system. Basic provisions and procedure".

SEC is necessary for a construction organization for:

- construction activities on the territory of the Republic of Belarus
- obtaining certificates of conformity for construction activities

SPC includes:

- organizational structure
- personnel (specialists) conducting product quality control
- means of quality control of the work performed (testing, control and measuring equipment with the current term for its certification and verification)
- working conditions (premises, transport, communications, etc.)
- ROV
- quality management system documents
