

Polotsk CSMS is a member of the educational cluster

Among the participants of schools and gymnasiums of our region, OJSC "Vitebskdrev", Vitebsk and Orsha standardization centers.

The goal of creating an educational cluster is to unite the activities and resources of educational institutions, partner organizations, regional centers of standardization, metrology and certification in the field of metrology and quality control. The cluster was created to solve the general tasks of consolidating the potential aimed at the career orientation of school graduates, increasing the educational and practical level of training of specialists, popularizing experience, developing scientific, innovative, organizational cooperation in the cluster, introducing innovations, participating in Olympiads, etc.
